SUBJECT: Department of the Army Processing No. 2015-00767

Mr. Bryan Paulozzi
12456 Saddlebrook Lane
Strongsville, Ohio 44149

Dear Mr. Paulozzi,

We were recently provided with information that suggests you may have been performing, or are proposing work on a property west of Saddlebrook Lane, in Strongsville, Cuyahoga County, Ohio (12456 Saddlebrook Lane).

Under Section 404 of the Clean Water Act, the U.S. Army Corps of Engineers regulates the discharge of dredged or fill material into waters of the United States, including streams and freshwater wetlands. Certain types of activities, such as land clearing using mechanized equipment and/or side-casting in a jurisdictional water would likely be regulated under Section 404 of the Clean Water Act.

An office resource review was conducted, and the findings of that review suggest that the project may be located in an area regulated by the Corps of Engineers and that a Department of the Army permit may be required for some or all of your project.

Working in an area that is within Department of the Army jurisdiction without proper authorization may cause you to incur a violation of Federal law. In such a case, your project may be stopped, a full or partial restoration of the jurisdictional area may be required, and/or you may be subject to civil penalties. **Please contact this office no later than August 21, 2015 to schedule a site visit on the property to determine if a permit may be required.**

Questions pertaining to this matter should be directed to me at 330-922-4263 or 716-879-4117, by writing to the following address: U.S. Army Corps of Engineers, 1100 Graham Road Circle, Stow, Ohio 44224-2933, or by e-mail at: douglas.j.kapusinski@usace.army.mil.

Sincerely,

A handwritten signature in black ink, appearing to read "D. J. Kapusinski", is written over the typed name.

Douglas J. Kapusinski, Ph.D., PWS
